Re: RD-79, T.O. 9

Dear Mr. :

25X1

In conducting the work called for under this Task Order it has been necessary to assemble various types of building materials at a spot some twenty miles from the contractor's laboratory. The building materials and their costs used are as follows:

Conent block	26.39
Brick	29.90
Reinforcing	
Rods	6.60
2" by 4" boards	4.80
Plywood	22.80
Nails	.65
	<u>\$91.14</u>

Since it would cost more to dismantle and return the above materials to either the Contractors laboratory or to the Contracting Agency we request that the above materials be expended on the contract.

Very truly yours.

25X1

MDK:tt
